IMPROVE YOUR EXPERIENCE

LiveTours App allows for an improved storytelling experience by sharing speech audio directly with your smartphone.

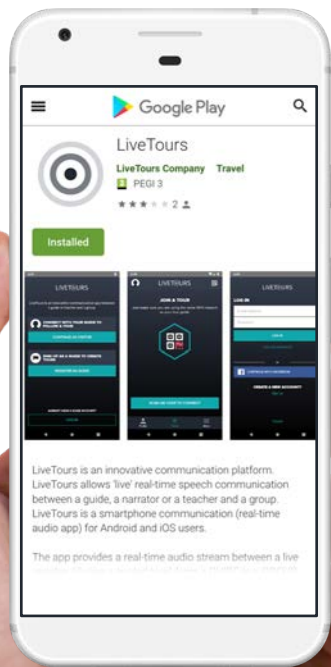

- To join the tour, make sure your device is using the same wi-fi network as your tour guide.

- For the best audio experience consider using a good quality headphone or earplugs.

Ready? Let's setup LiveTours...

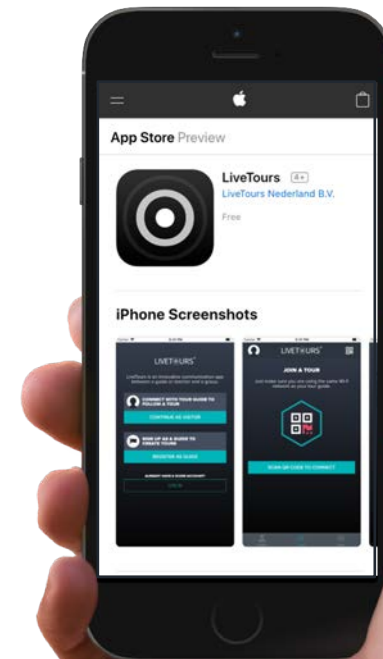

DOWNLOAD & INSTALL

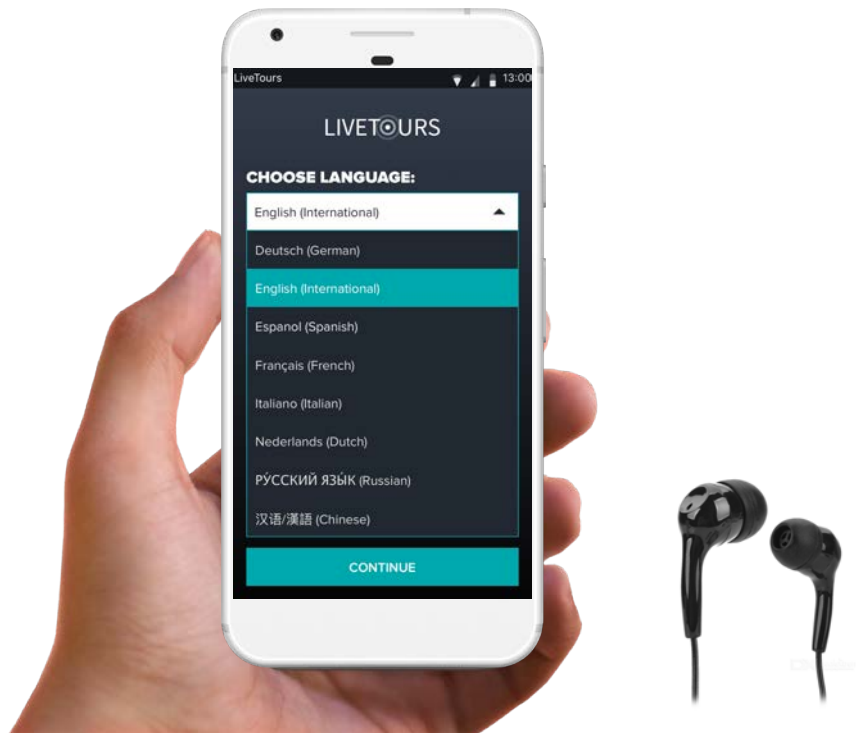

Visit our website at [LiveTours.com](https://www.livetours.com) for a direct link to your app-store.

Then download and install the LiveTours App for free!

FIRST TIME USAGE

1. When you start LiveTours App, you need to choose your preferred language*. You can always select a different language via the profile menu.

2. To function correctly on your device, LiveTours App requires access to:

- **Camera** – used for scanning a tour's unique QR-code
- **Local storage** – used to store tour content and settings
- **Incoming calls** – used to stop the tour audio when you accept an incoming call
- **Microphone** – used for speech audio distribution (guide)

Access will be requested by the app when needed

* Earlier releases of the app might have less available languages.

YOU JOINED THE TOUR

Excellent! You have joined the tour. Now we need to wait for the tour guide to start the actual tour itself.

In the meantime, you could speed things up by sharing the tour's unique QR code with your fellow guests to join the same tour too!

ENJOY THE TOUR!

Great, the tour guide started the tour!

Now is a good time to use your headphone, or earplugs, for the best experience.

Touring tip:

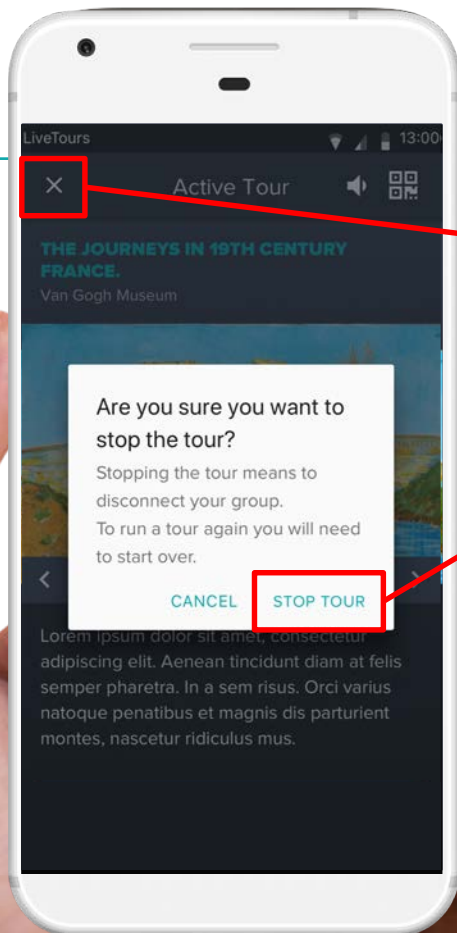

If someone needs to (re)connect, you can always use the tour's unique QR-code.

This will let them join the tour without having to interrupt your tour guide...

Enjoy your tour!
